

## CARBONIZED FIRED GLASS CANDLE HOLDERS, NO. 1

EXCLUSIVE TO NICOLEHOLLIS COLLECTION

RG STUDIO BY ROGAN GREGORY

### ORIGIN

Los Angeles

### DIMENSIONS

No 1: 2.5" diameter x 2.5"H

No 2: 3.75" diameter x 4"H

### FINISH

Ash

### MATERIAL

Scavo Glass

### DESCRIPTION

These organic glass candleholders by Rogan Gregory's RG Studio are fired and carbonized, burnished to a deep patina. Holding a single taper candle, they bring the story of fire full-circle: as a force to create, desiccate, transform, but also to illuminate. Given the hand-made nature, no two will be exactly the same.

Set No. 1 includes two candle holders as shown. No two pairs are alike. Color, texture, and shape may vary slightly.

### CARE

To clean without disturbing the surface and texture, gently wipe away dust or dirt with a soft, clean cloth. Do not use harsh pressure or abrasive cleaners. If further cleaning is necessary, soak in warm (not hot) water with mild, biodegradable soap and air-dry without rubbing.

## CARBONIZED FIRED GLASS CANDLE HOLDERS, NO. 2

EXCLUSIVE TO NICOLEHOLLIS COLLECTION

RG STUDIO BY ROGAN GREGORY

### ORIGIN

Los Angeles

### DIMENSIONS

No 3: 4" diameter x 5"H  
No 4: 3" diameter x 5.5"H  
No 5: 3.5" diameter x 7.75"H

### FINISH

Ash

### MATERIAL

Scavo Glass

### DESCRIPTION

These organic glass candleholders by Rogan Gregory's RG Studio are fired and carbonized, burnished to a deep patina. Holding a single taper candle, they bring the story of fire full-circle: as a force to create, desiccate, transform, but also to illuminate. Given the hand-made nature, no two will be exactly the same.

Set No. 2 includes three candle holders as shown. No two pairs are alike. Color, texture, and shape may vary slightly.

### CARE

To clean without disturbing the surface and texture, gently wipe away dust or dirt with a soft, clean cloth. Do not use harsh pressure or abrasive cleaners. If further cleaning is necessary, soak in warm (not hot) water with mild, biodegradable soap and air-dry without
