

## COFFEE GRINDER

MICHAEL ANASTASSIADES

### ORIGIN

Austria

### DIMENSIONS

2.5" diameter x 12"H

### FINISH

Polished Brass

### MATERIAL

Brass

### DESCRIPTION

An offset silhouette in polished brass designed by Michael Anastassiades transforms this elegant handheld coffee grinder from a simple functional object into a thing of beauty and daily ritual. Fabricated in collaboration with the renowned Viennese designer Carl Aubock, its exclusive Swiss-made grinding mechanism includes three rotating cylinders with custom gearing designed exclusively for coffee beans, stored in the mill's base.

### CARE

Hand-wash only using mild dish soap, and allow it to dry completely before use. The exterior can be polished using a dedicated brass polish, if desired, otherwise fingerprints and use will cause a beloved dark golden patina over time.
