

NICOLEHOLLIS

## DIMPLE PLATE

OGATA

### ORIGIN

Japan

### DIMENSIONS

3.5" dia

### MATERIAL

Copper, silver-plate

### DESCRIPTION

Artisans in Japan use the "tsuiki" technique, practiced over centuries from the Edo period, to hammer and stretch sheets of copper into these Dimple Plates, creating lightweight additions to the modern tabletop. The finished texture is the result of thousands of individual hammer strikes, every one a remnant of the maker's hand. They are silver-plated and waxed, and will develop a unique patina with time and use..

### CARE

As this product is made by hand, variations in texture, color, pattern, shape, and size are to be expected.

To clean, rinse with water and a soft sponge. Do not use household cleansers, abrasive cleansers, or metallic sponges. Air dry well.

Do not store in a stack of other objects to avoid scratches. If visible dirt accumulates, clean with a soft cloth soaked in toothpaste or baking soda.
