

IGNEOUS CANDLE HOLDER NO. 2

EXCLUSIVE TO NICOLEHOLLIS COLLECTION

RG STUDIO BY ROGAN GREGORY

ORIGIN

Los Angeles

DIMENSIONS

7"L x 7"W x 8"H

FINISH

Bronze

MATERIAL

Bronze

PRODUCTION

Edition of 1

DESCRIPTION

Inspired by ecological systems and evolution, the sinuous and organic shapes of Rogan Gregory's "Igneous" series reference the geologic processes that shape our earth. Each piece is rendered in nodules of solid bronze, dense and weighty, cradling around a single taper candle. Their unassuming stature reveals objects with outsized mass and presence.

Formerly displayed in art galleries, The Rogan Gregory "Igneous" series represents an exceptional manifestation of artistry and craftsmanship.

CARE

If removing tarnish is desired, use a standard tarnish remover appropriate for brass. Avoid applying to clearly patinated areas. Remove excess with a clean cloth. Superfine 0000 bronze wool or steel wool can be used to regain luster.

After removing tarnish, reapply 1-2 coats of paste wax on the affected areas, buffing between coats. Keep in mind that the wax provides limited protection; eventually the bronze will tarnish again and this should be seen as the expected evolution of the material.
