

NICOLEHOLLIS

WOVEN RATTAN BASKET

UNDERWATER WEAVING

EXCLUSIVE TO NICOLEHOLLIS COLLECTION

ORIGIN

United States

FINISH

Natural, Black

MATERIAL

Rattan Core

DESCRIPTION

Each lightweight storage basket from Underwater Weaving is hand-woven from 100% rattan, using timeless American craft techniques. The rattan is soaked to make it supple, then fashioned into a functional sculpture as beautiful and soulful as it is utilitarian, with a plaited weave, inset handles, and contrasting details that imbue the humble silhouette with contemporary graphic sophistication.

Due to the handmade nature of these baskets, slight variations in size and color should be expected.

Available in three sizes and two colors.

CARE

For indoor use only. Wipe clean with a dry cloth. If misshapen parts occur, firmly mold the rattan back into place.
